

Investing in Tupperware Brand Products will enable you to bring healthy choices, get more organized, save money and protect the environment...all issues that are important to every family!

H.ealth

FridgeSmart® allows you to protect your fruits and vegetable—making them last longer. When they are more readily available, you are more likely to incorporate them into your family's meal plan. Additionally, using products like our Vent 'n Serve™, Heat 'n Serve® and our Oval Microwave Cooker will allow you to put nutritious meals on the table fast...decreasing the fast food consumption for your family that is so hazardous to their health. Our new TupperLiving™ Teas have well documented health benefits.

O.rganization

Organize your refrigerator and your pantry...and fall in love with your kitchen again! Our Modular Mates® Product Line will help you have a more sanitary system for your dry foods storage. Every food item will have a permanent place in your kitchen, eliminating duplicate buying. This will save you space in the kitchen, time from unplanned shopping trips and money from wasted food items.

M.oney

Whether you're reducing the number of meals that you eat out, eliminating wasted food that you throw out or taking advantage of buying sales items in bulk, the investment you make in our products will be recouped within the first several months of using them!

E.nvironment

By using our TupperLiving™ Microfibre products and our re-usable products with a LIFETIME warranty, you can eliminate or reduce paper products, plastic bags and plastic water bottles. This will save money, and will reduce the amount of trash created by your family.

Come **H.O.M.E.** to Tupperware!
