

# Tupperware®

## THE TUPPERWARE CATALOG

Your Guide to all that Tupperware has to offer

Use the Tupperware catalog to learn about your Tupperware® products. Spend time going through it and be sure to notice:

- Great tips and products
- Tupperware's product lines
- Ways to use the products
- Features and benefits
- Information about the Tupperware Opportunity
- Information about the Host Program
- Fundraiser Program
- Lifetime Warranty on Tupperware products.

### Preparing for Your First Party

In your materials, you received Features and Benefits stickers for each of the products in your kit. Find the products in your catalog and pencil in the catalog number and price. This will help you easily reference these products for both for yourself and your customers. Place the features and benefits stickers on your products. In this way, you can refer to the features and benefits of the products easily while you demonstrate them with your guests.

Prepare guest folders with the following items:

- Catalog
- Customer Order Form
- Monthly Flyer
- Host Specials
- Opportunity Flyer
- Recipe Card (If you're doing a cooking demonstration, you can hand these out as give-a-ways.)
- Business Card
- Pen

### At the End of Your Party

Collect the guest folders so you can reuse the catalogs, folders, flyers and other documents for the next party. If a customer wants to take a catalog home, suggest they put it with their recipe books at home so they always know where to find their Tupperware connection.
