OPPORTUNITY FLYER

The Opportunity Flyer — Recruiting Tool 101

Use the Opportunity Flyer to build awareness about the Tupperware Business Opportunity. This tool is a great conversation starter between you a Host or guest. Use this versatile tool throughout your business.

Before the Party:

Include an Business Opportunity flyer in the Party Planning packet for the Host. Also, include it in every guest folder you prepare for party guests. By including it with your Host and guest materials, you are opening the door to the possibilities for Hosts and guests, while giving you a reason to ask your Hosts and guests if they have ever considered doing what you do and telling them they would be very good at it.

During the Party:

As you demonstrate the products in the Business Kit, refer to the Business Opportunity flyer to show that the product is a part of the new Consultant's Business Kit. Also, display the Opportunity Flyer with your product display. One of the best products in your Business Kit is the Tupperware Business Opportunity.

After the Party:

The back of the Opportunity Flyer is the Consultant Agreement. When you recruit new team members, have them complete the back of the form. Give them the top copy and you keep the bottom portion to refer to when you enter the new Consultant's information in My Sales.
