

Thank you again for letting me share my passion for Tupperware products with your family and friends!!

Once your order arrives, make sure it is in it's entirety. Sometimes boxes get separated during shipping. Make sure that you have them all before beginning to pack orders. The label on the front will tell you how many boxes there should be. For example, 1 of 3 means that you are supposed to have a total of 3 boxes. Once you know you have everything then you can begin!

It's easy as P.I.E.

to fill your order! Just follow these easy steps:

P.our out each box, one at a time

I.nventory each box (match them to the items on the packing slip). When all items are accounted for, take

E.ach order form, place it in a bag and add the items that are highlighted.

THAT'S IT!! YOU'RE DONE!! If you have any questions, please be sure to call me!
