

Notes:

Custom Kitchen Planning

How They Stack Up!

Units High

- Numbers on the bottom 1-5

How to get started?

- Do your own kitchen first!!
- Ask a friend or relative to let you “practice”.

How Modulars build your business

- Keeps customers coming back for more—they can't buy them all at once
- Date parties—half price items, plus host credit
- Recruit—earn \$ and use the discount!
- Attract “different” customers
 - one-on-one service much like an interior decorator, personal trainer, etc.

How They Stack Up!

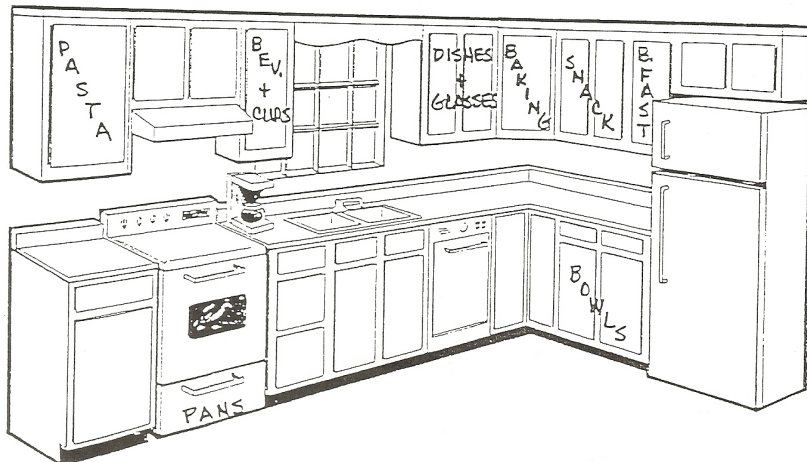

Units Width

- Ovals: 1 unit wide
- Squares/Rectangles: 2 units wide
- Rectangles are 3 units wide if not put in “deep”

Centers Concept

Baking
Snack
Beverage
Breakfast
Pasta, Bean, etc.

What do I do with the graphs?

- Blue print of the kitchen
- If customer orders **ENTIRE** system
 - offer installation
 - includes putting food in containers, labeling and installing using the graphs
- If customer orders only one center, provide graphs so they can install themselves.

Instructions for Graphing

1. Determine Available Shelf Height

- Insert the tallest Modular Mates container that fits between the shelves
- Then record the shelf height available in the upper left corner of the graph

3. Determine Available Shelf Depth

- Place a Rectangle or Super Oval container on the shelf to determine if the depth of the shelf can accommodate it.
- Then write the shelf depth in the upper left hand corner of the graph.

2. Determine Available Shelf Width

- Place a combination of Modular Mates containers side by side on shelf. Each Round, Oval or Super Oval container represents one block on the graph. Each Square or Rectangle represents two blocks on the graph
- Then write the shelf width available in the upper left corner of the graph

4. Indicate Space Available for Containers on the Shelf

- Using a Bold marker, outline the maximum height and width available to place containers on this shelf.
- Complete the customer information in the upper right corner of the graph.

Note: For easy removal of containers, do not use the area behind a center "facing" or center support in a cupboard unless the customer requests it.

Note: Be sure the make the line down the center of the graph bolder to indicate the "facing" or center support of the cabinet

Example

Custom Kitchen Planning Cupboard Graph							Customer: Sue Brown Center: Pasta, Bean & Rice Cupboard Location: Left of Stove Shelf Location: Bottom Shelf
Shelf Height: Modular Mate 4 high	Shelf Width: 6 Modular Units						*18"
Shelf Depth: Rectangle or Super Oval							*15-1/2"
7 Modular Units							*11-1/2"
6 Modular Units							*9-1/4"
5 Modular Units							*7"
4 Modular Units	Rectangular 1 Taco Shells	Super Oval 2 Pinto Beans	Super Oval 2 Long Bean Rice	Rectangular 2 Wide Noodles			*5"
3 Modular Units	Rectangular 1 Shell Macaroni	Super Oval 2 Pinto Beans	Super Oval 2 Elbow Mac	Rectangular 2 Ramen Noodles			*2-3/4"
2 Modular Units	Rectangular 1 Shells	Super Oval 2 Tortant Rice					
1 Modular Unit	Rectangular 1 Lasagna
