

# Glass and Bamboo Storage Jars

Glass and Bamboo Storage Jars are an eco-friendly and sustainable solution to display ingredients, dry foods, and other contents in your home.

## Features and Benefits

- **Wide opening-** makes it easy to fill and clean.
- **Borosilicate base-** is a fully transparent, high-quality material that allows easily identifying of contents.
- **Slim and sleek design –** allows for easy one-hand grabbing of the container.
- **Pull-style lids-** are easy to open and close. They fit tightly to keep odors out and freshness in.
- **Secure stacking –** is provided by the high rim around the lid.
- **Silicone gasket-** keeps the lid firmly in place.
- **Bamboo lid –** is made from natural materials, biodegradable, and free of formaldehyde and BPAs.
- **FSC® Certified –** means the Bamboo lid is sustainably sourced.
- **Variety of sizes –**
  - 2¼-cup/550 mL - ideal for storing loose tea, dried fruit, nuts, and more. Also great for household items such as cotton swabs, cotton pads, or hair accessories.
  - 4-½ cup/1.1 L - ideal for storing grains such as rice, quinoa, or beans. Also for fully wrapped items like granola bars, candies, or coffee pods.
  - 8-cup/1.9 L - ideal for storing pasta, cereal, oatmeal, and more. Also for organizing beauty supplies such as makeup brushes, cotton balls, and hair clips.

## Use & Care

- To minimize scratches or avoid damage to the high-gloss finish, hand wash all parts of the product, including the silicone gasket with a mild detergent and a non-abrasive sponge. Do not use a scouring sponge. Use only non-abrasive, non-chloride cleansers with a Tupperware® Microfiber Towel. Do not submerge bamboo lids in water.
- To wash, remove the silicone gasket for thorough cleaning. The silicone ring should be completely dry before assembling back onto the bamboo lid.
- Not suitable for ingredients such as sugar, opened candy, or powdery consistency, such as flour, as the silicone gasket can cause a static reaction when the lid opens.
- Always grab and hold the product by the base. Avoid lifting or carrying it by the lid.
- Dry with Tupperware® Microfiber towels to avoid fingerprints.
- When not in use, store the bamboo lid separately from the glass base.
- To avoid moisture, ensure bamboo lids are completely dry before adding the silicone gasket or placing it on top of the base.

## Demonstration Ideas and Tips:

- It is great for gift giving during the holidays or special occasions such as weddings, or as a housewarming gift. Add a batch of cookies or homemade craft inside and add a small bow on top.
- FSC® Certified stands for Forest Stewardship Council. Choosing to be FSC® Certified for either lumber or paper products means it comes from sustainably managed forests and promotes healthy forests for future generations.
